HELIUM

Comfort without boundaries

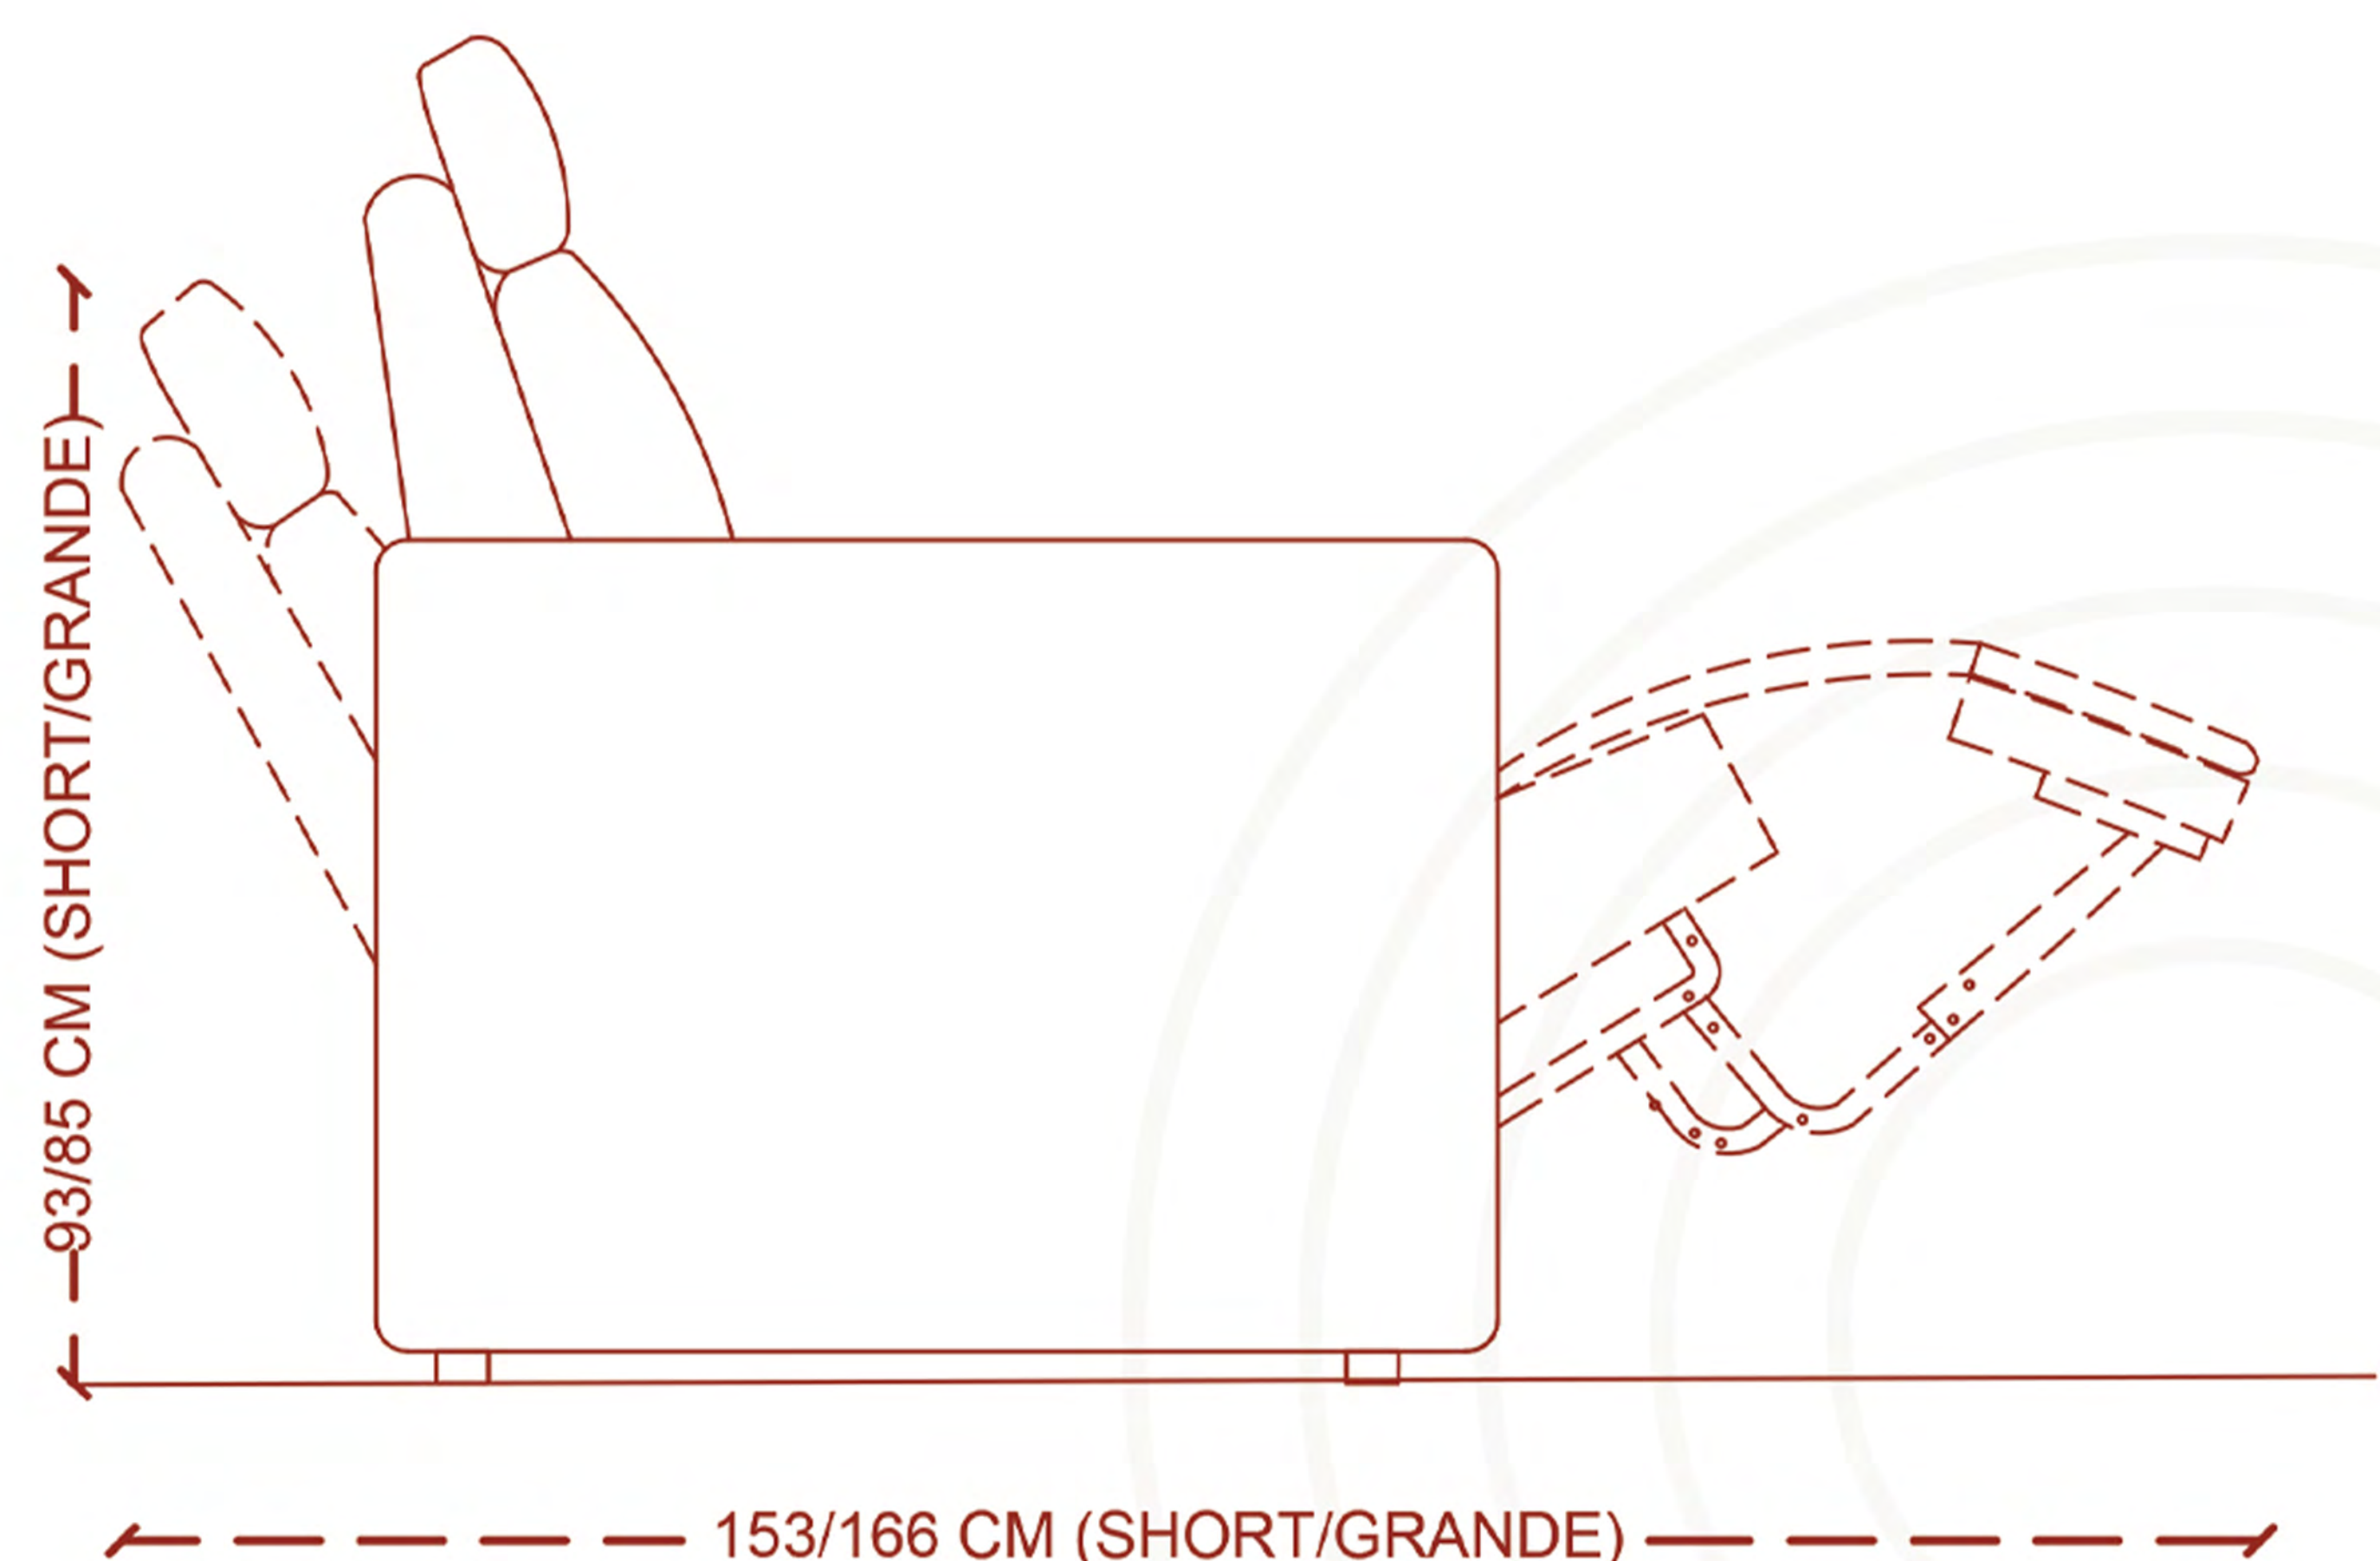

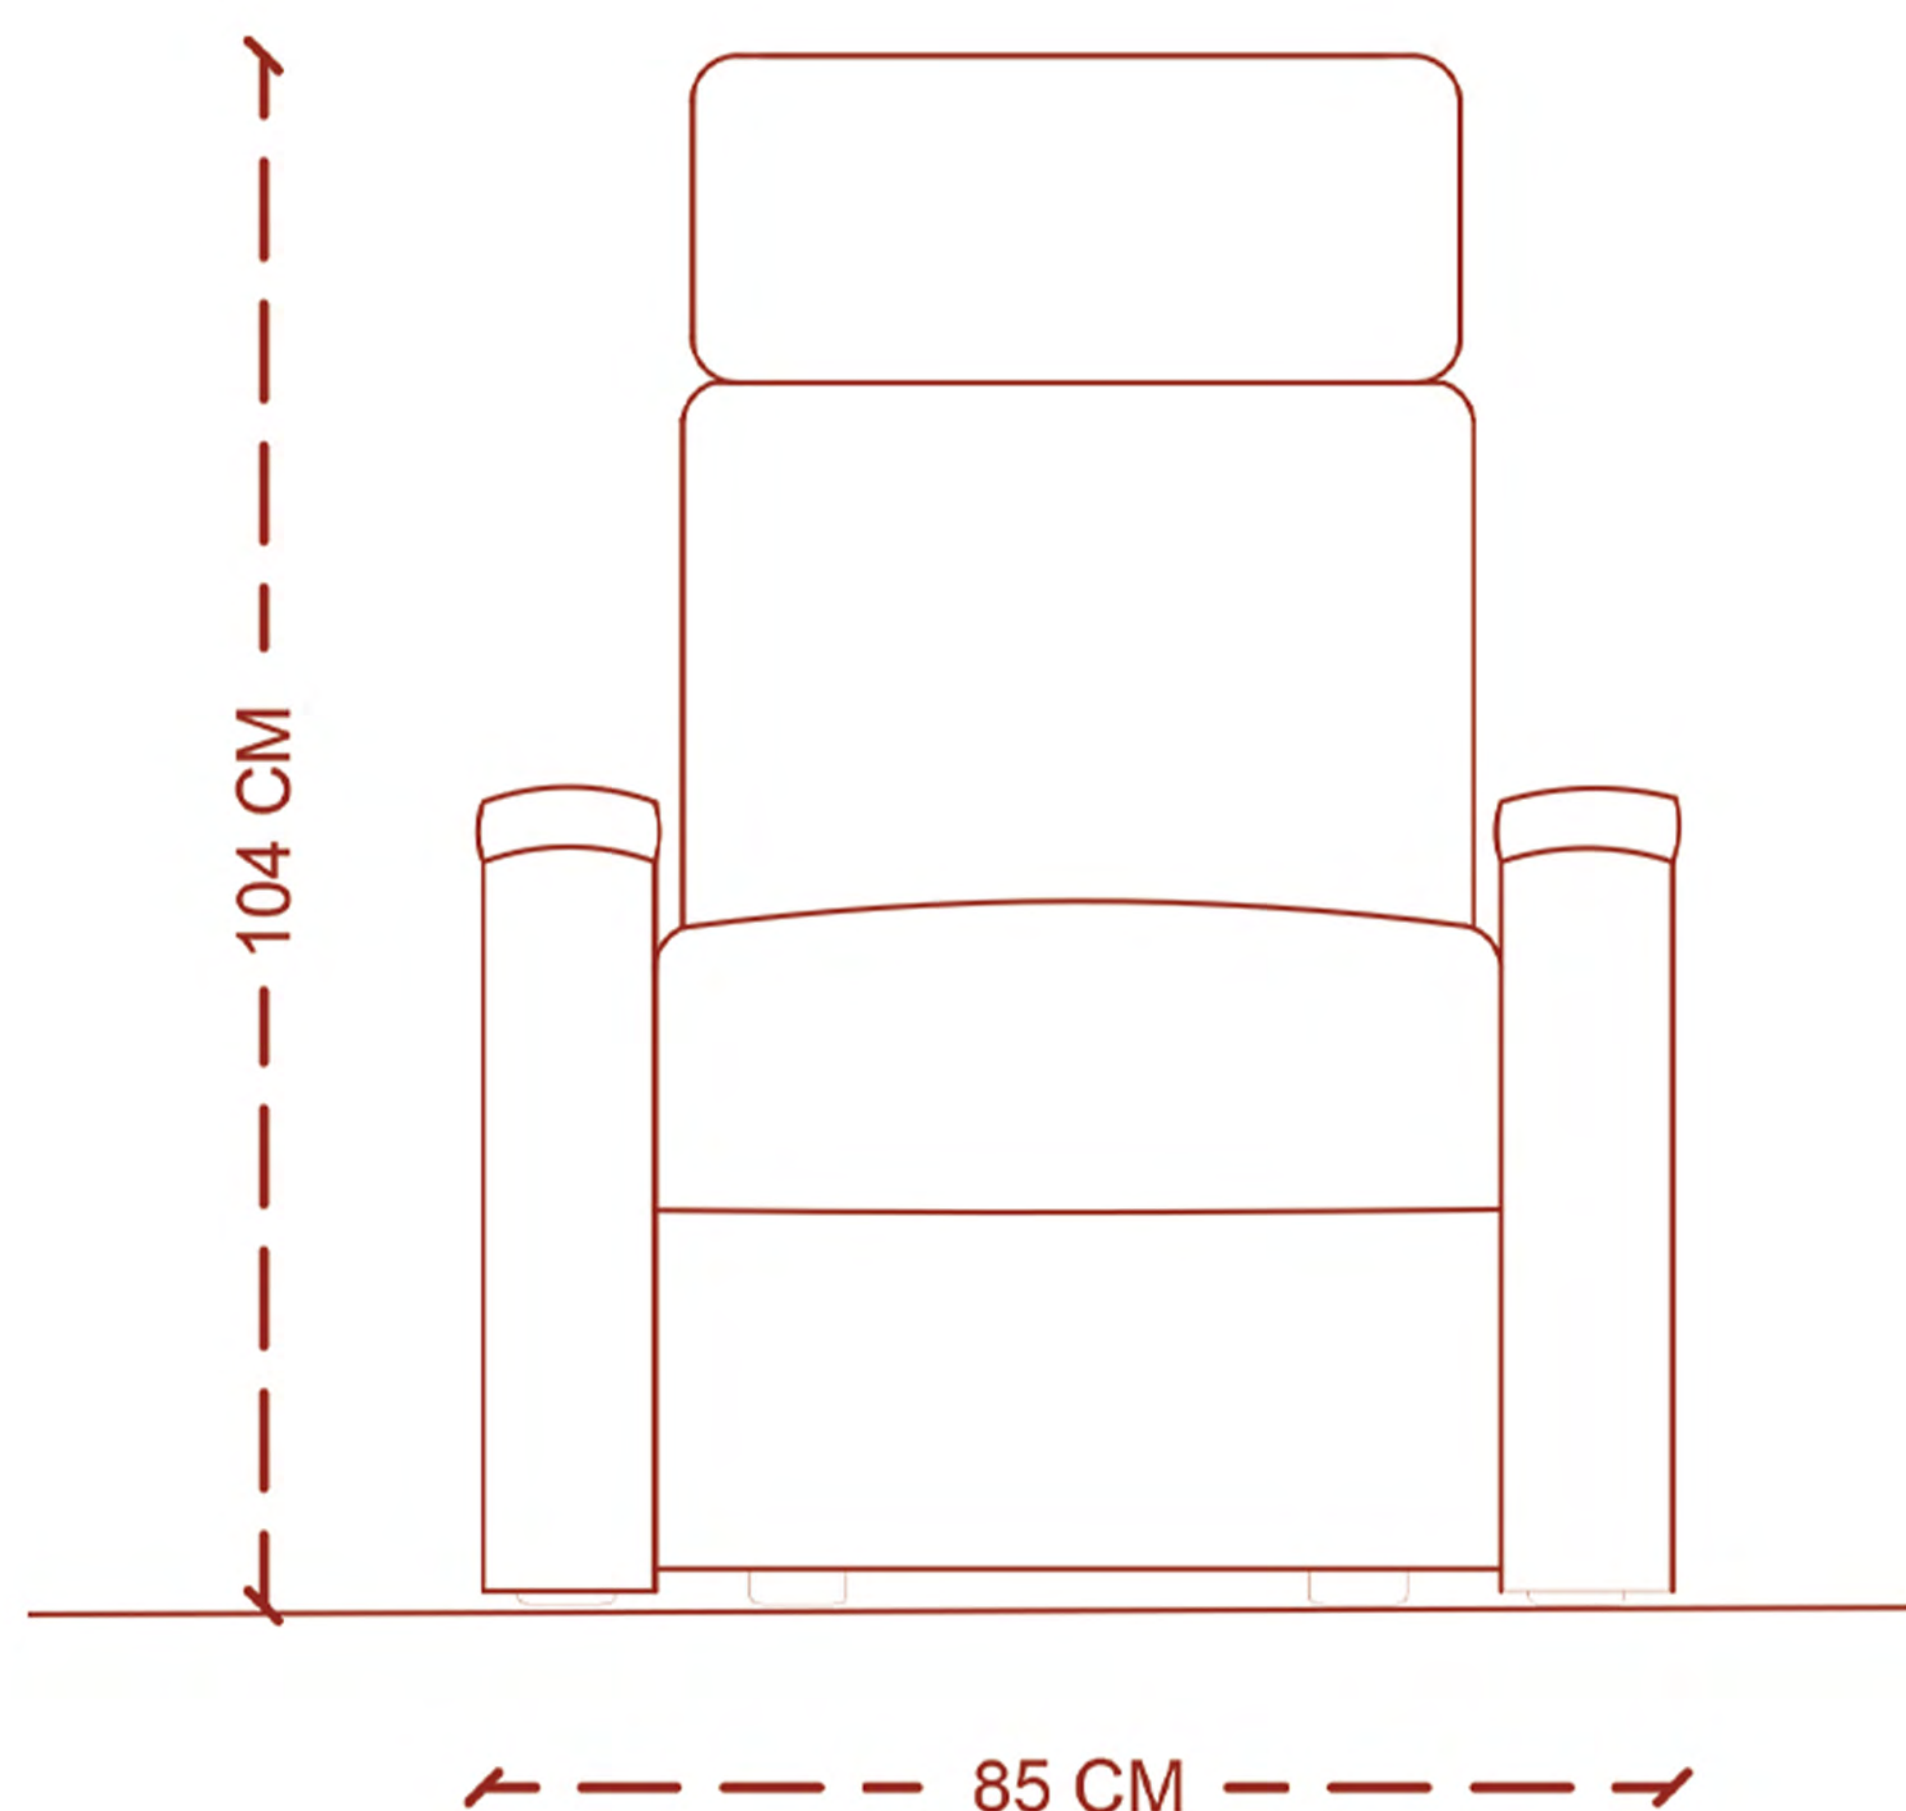

Helium features a firm backrest engineered to provide exceptional posture support without compromising on comfort. Its ergonomic design ensures a relaxing experience while maintaining spinal alignment, making it the ideal choice for those looking for the perfect blend of comfort and zero strain during extended periods.

NEON

Minimalism meets comfort

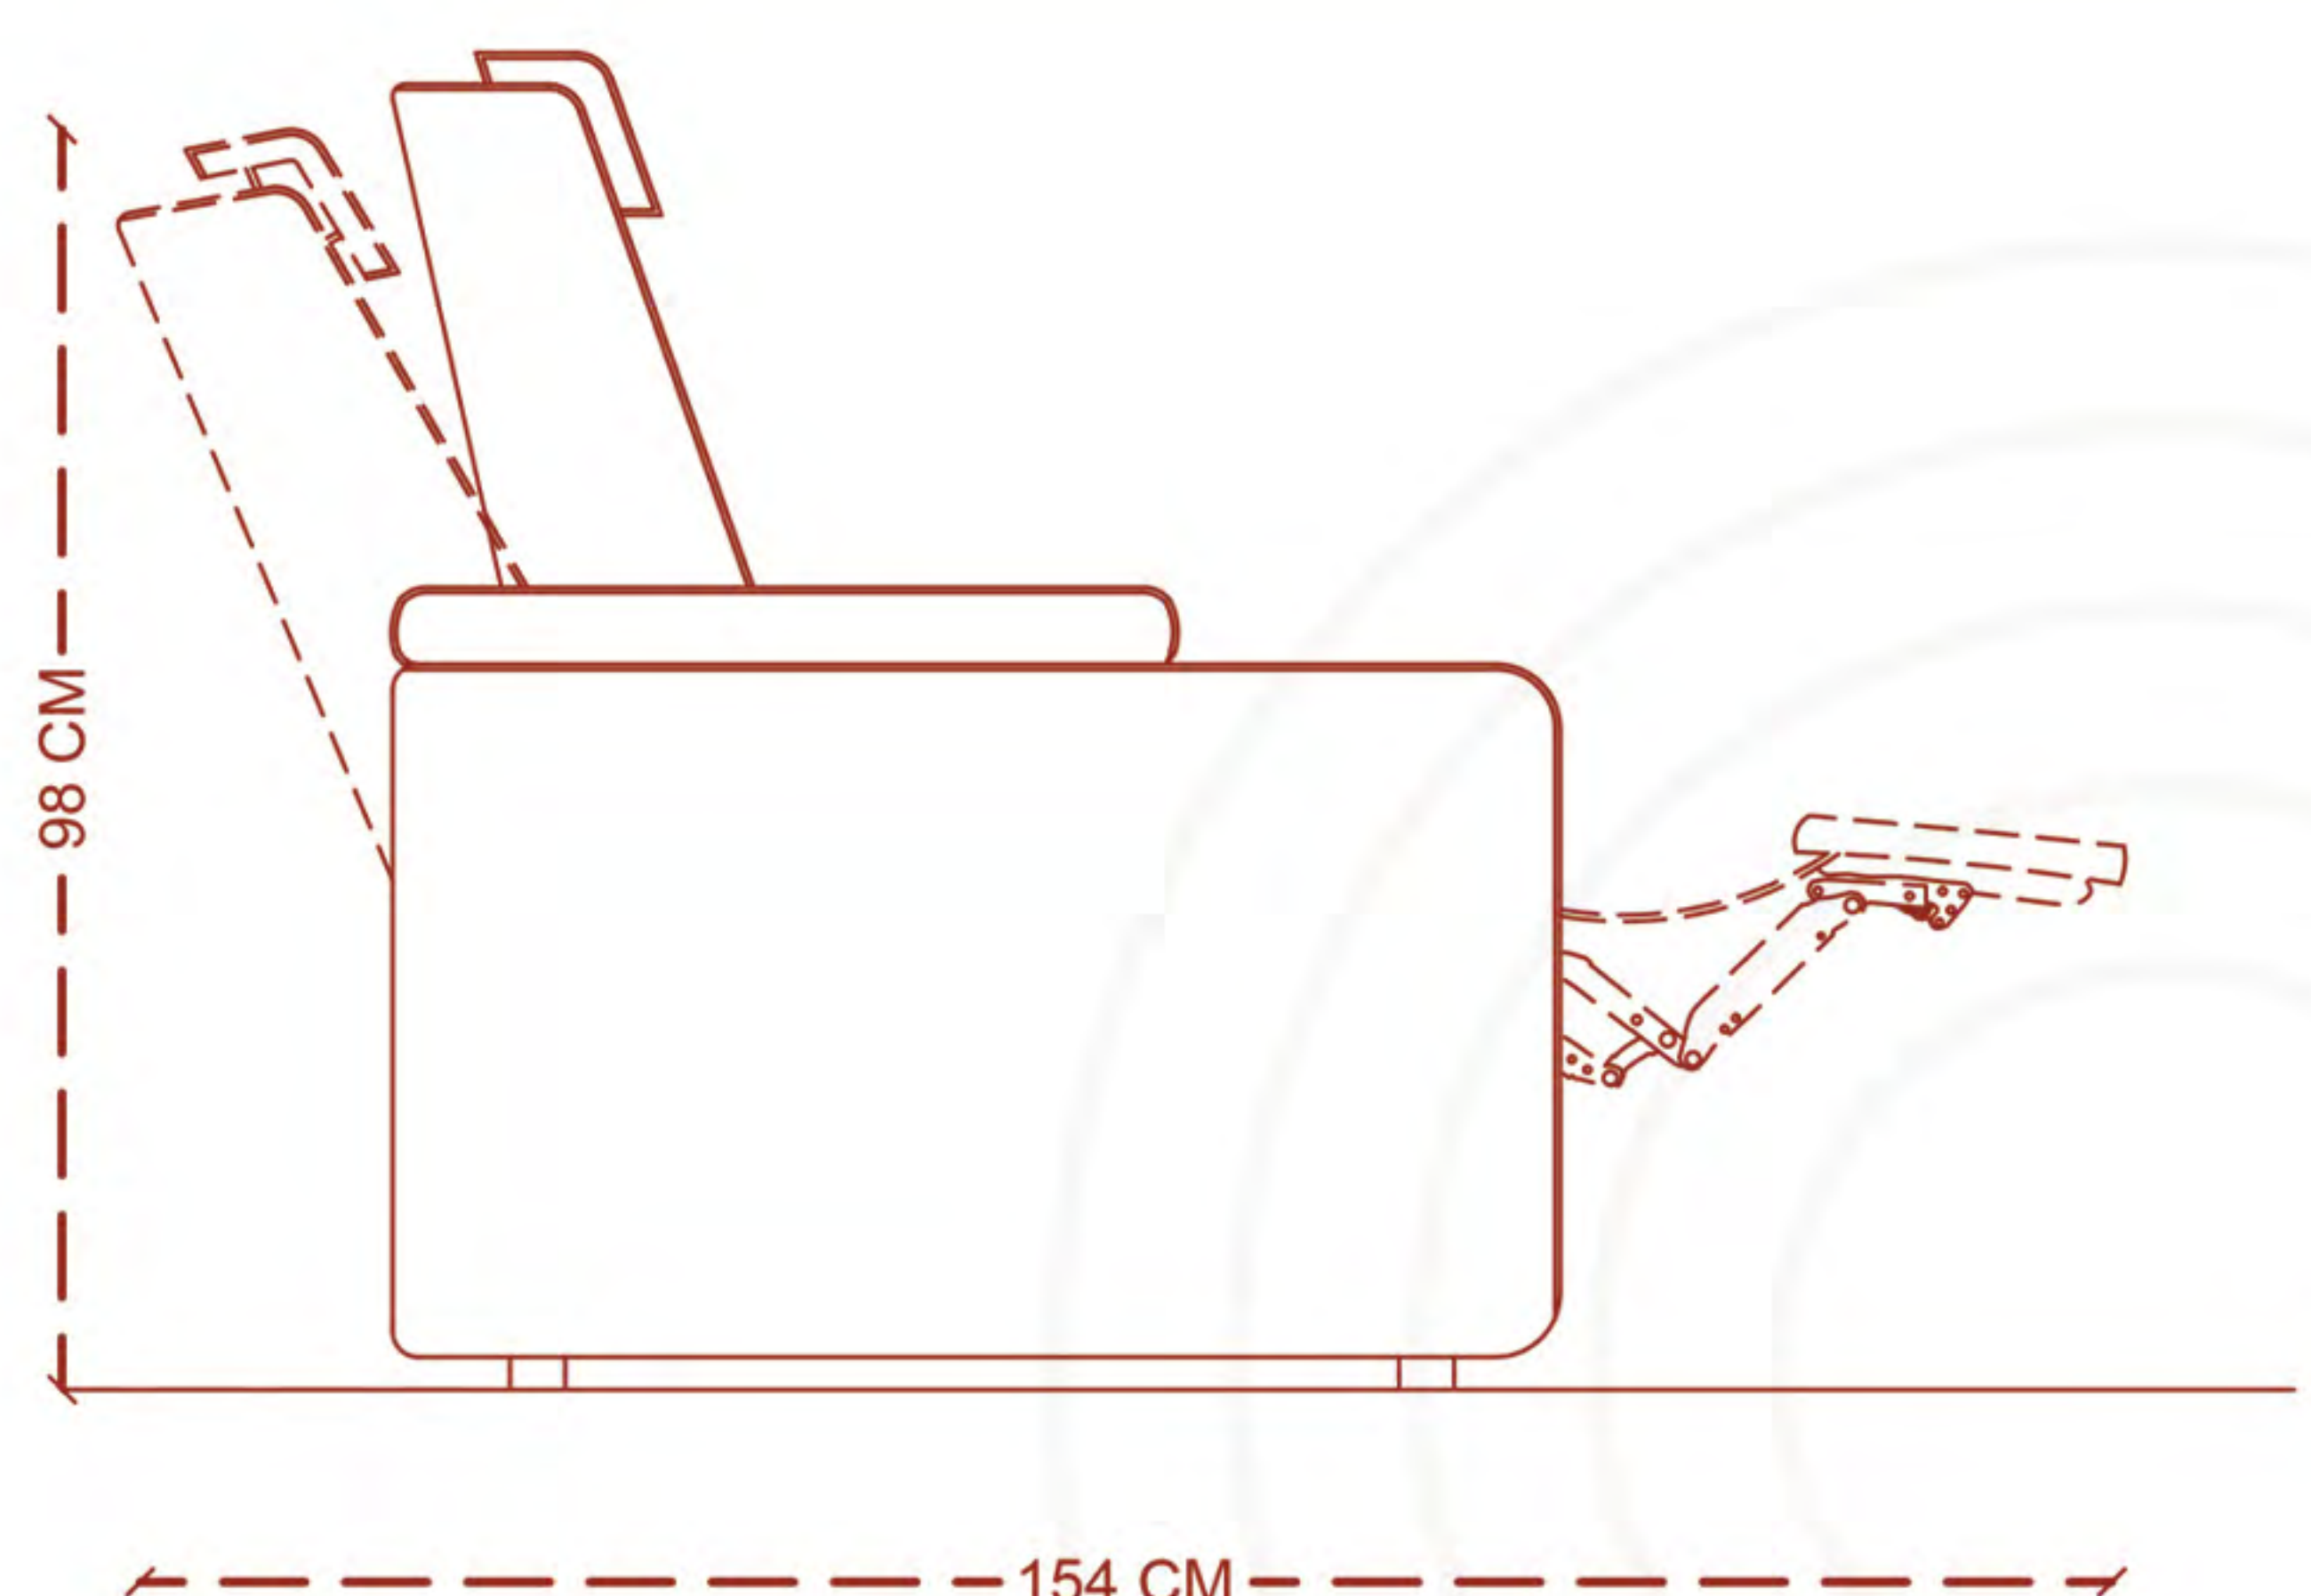

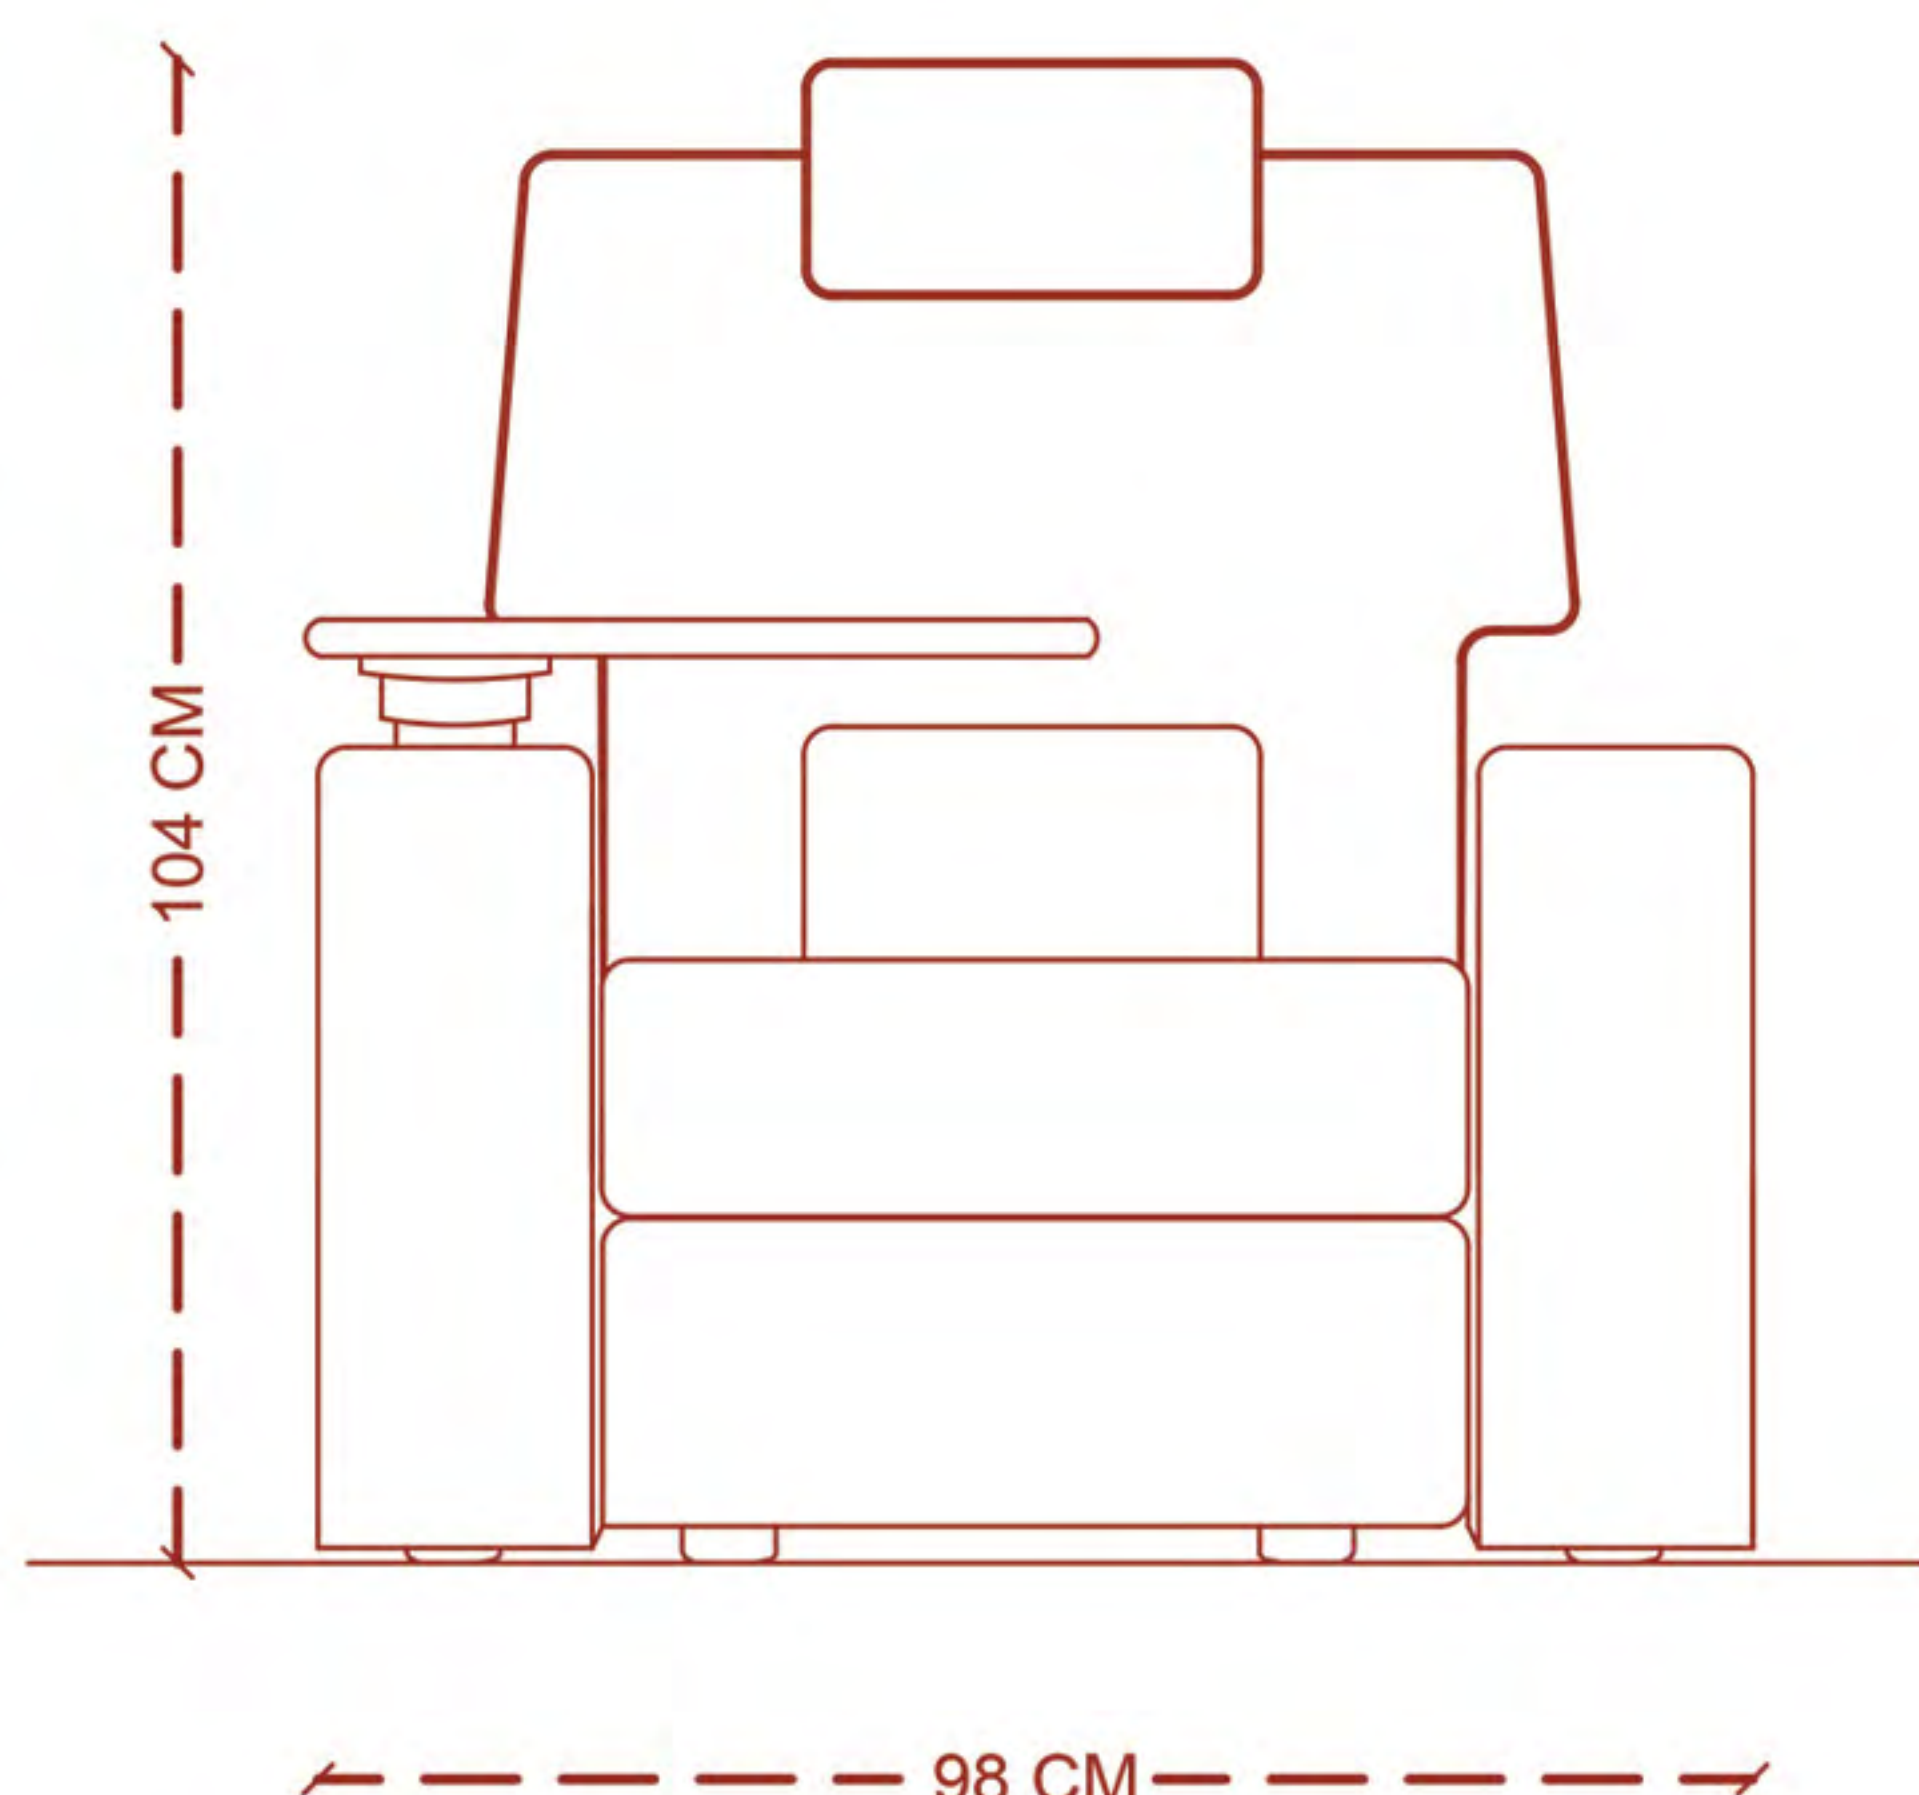

Neon is tailored for those who appreciate the elegance of simplicity and the luxury of comfort. Its medium firm back ensures that every movie-goer can enjoy their film in the utmost comfort, supported by a sleek and modern aesthetic that complements any cinema setting.

PLATINUM

Royal in every way

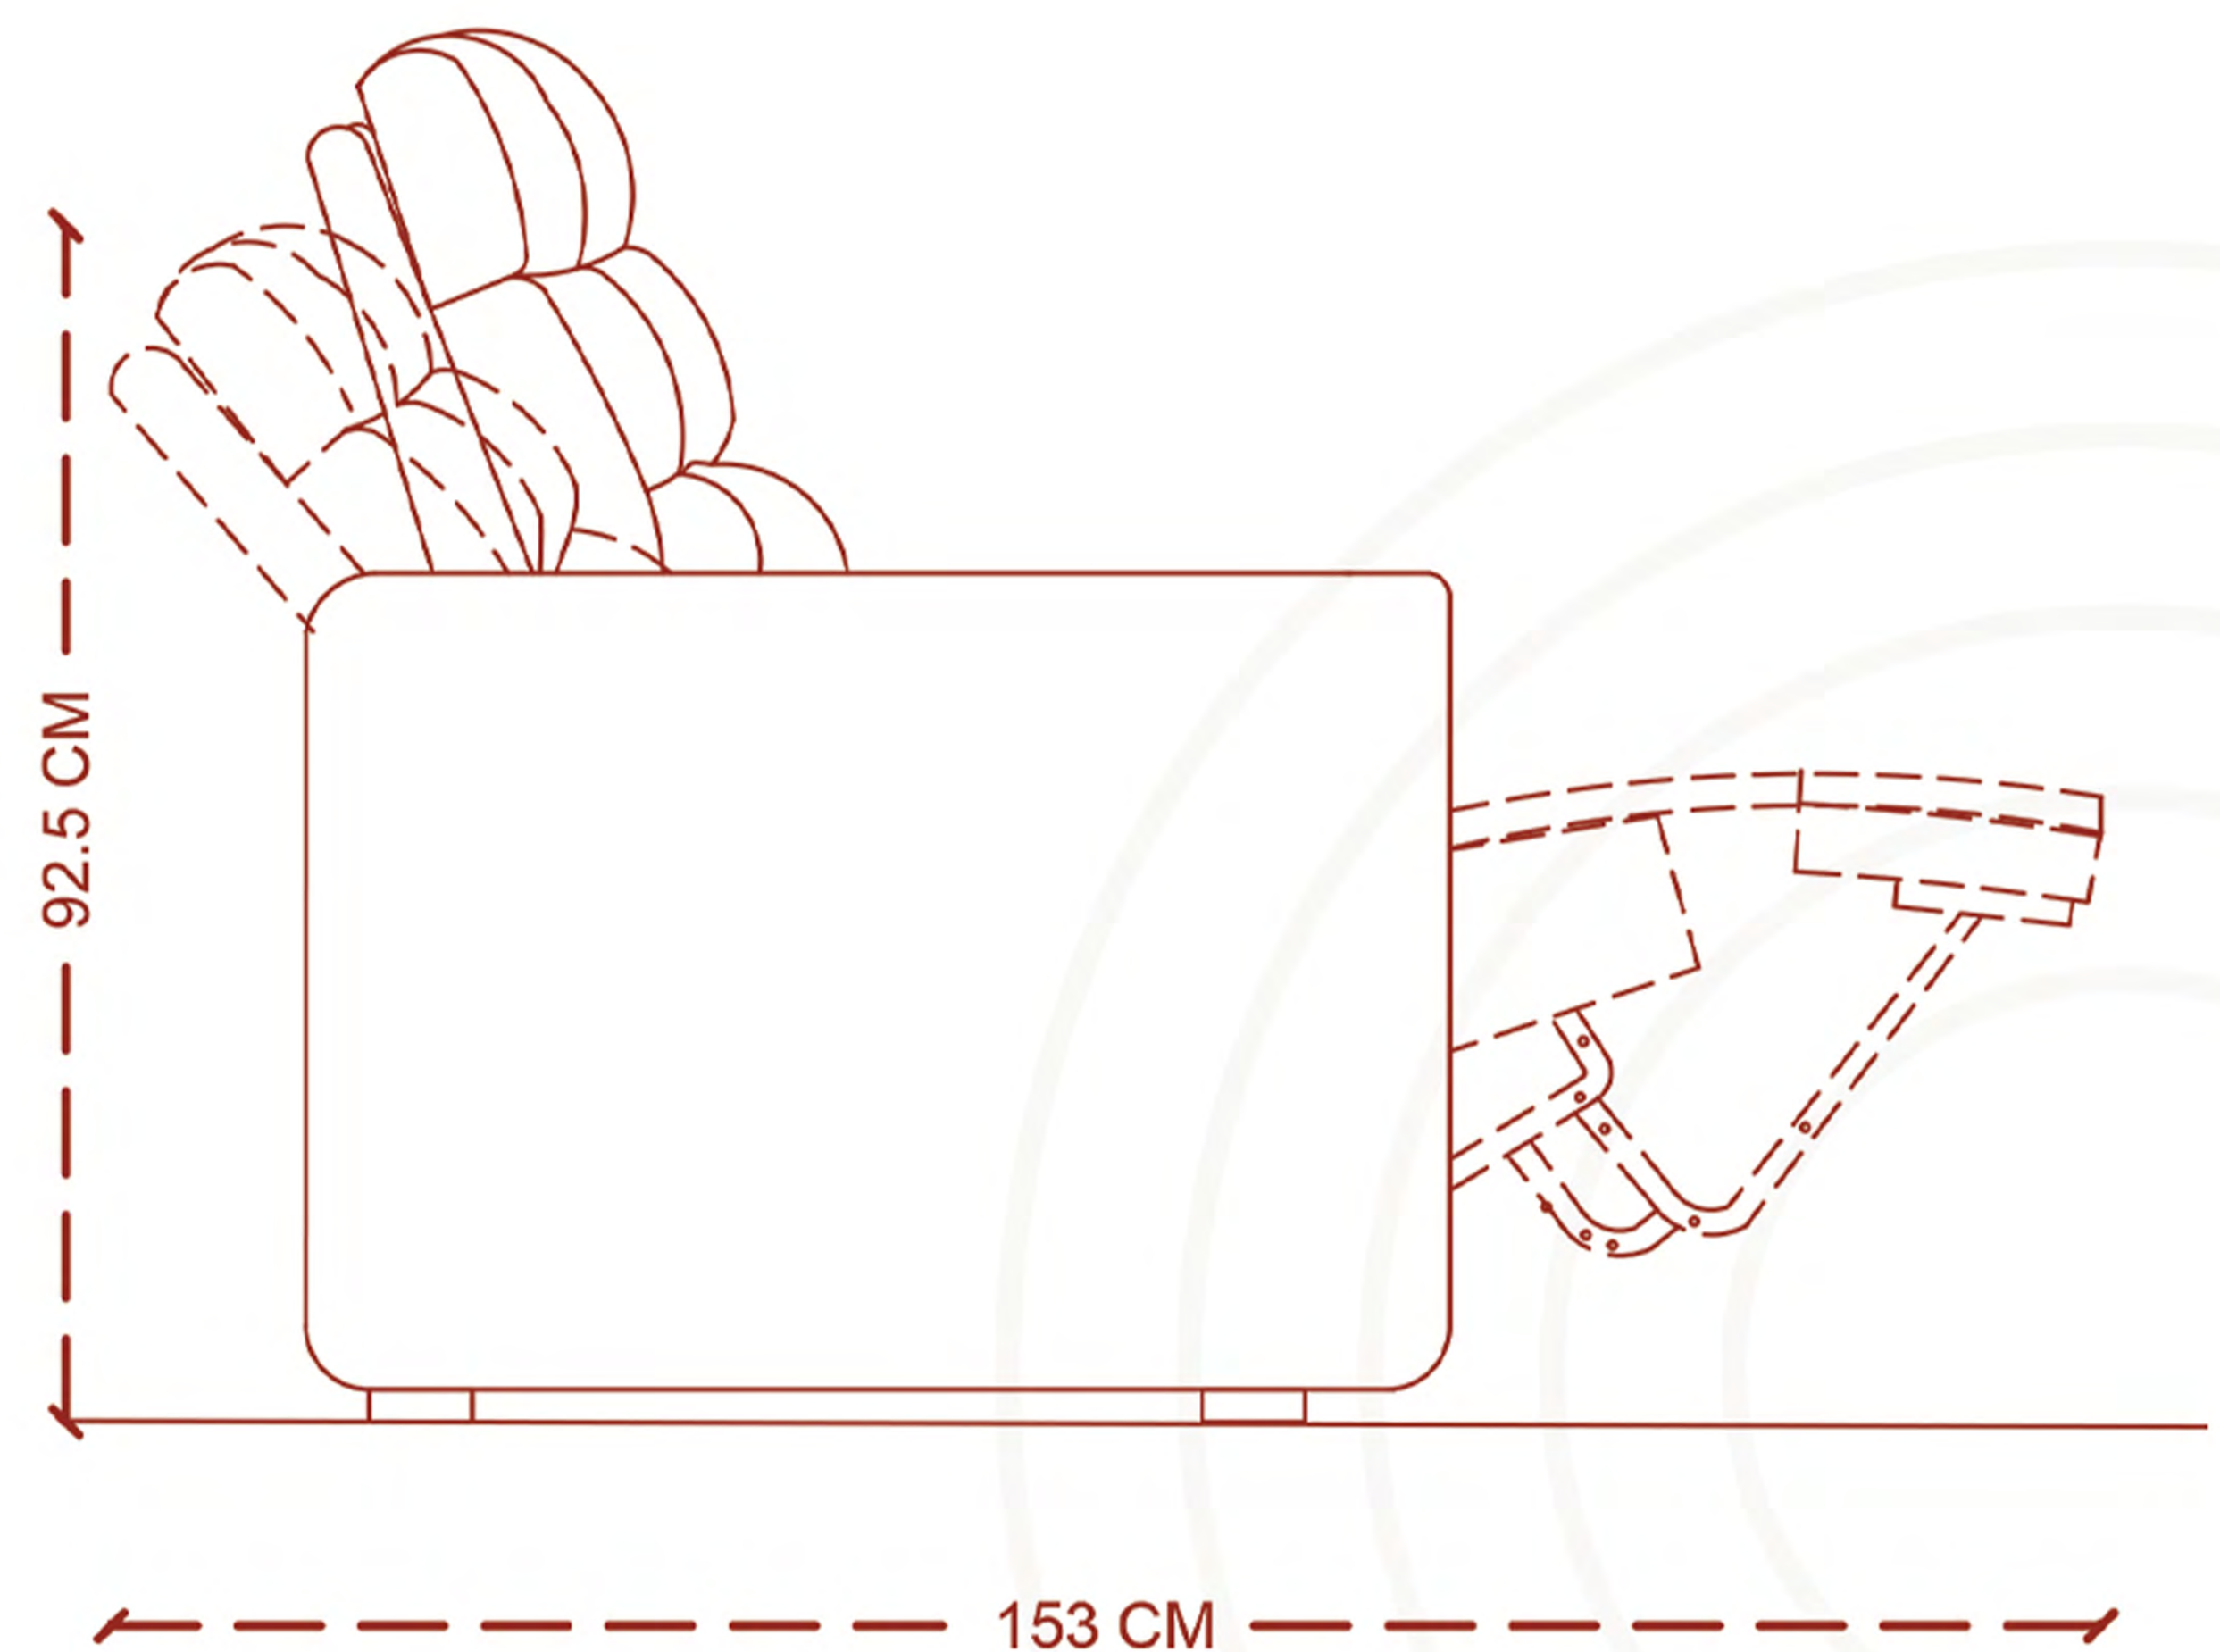

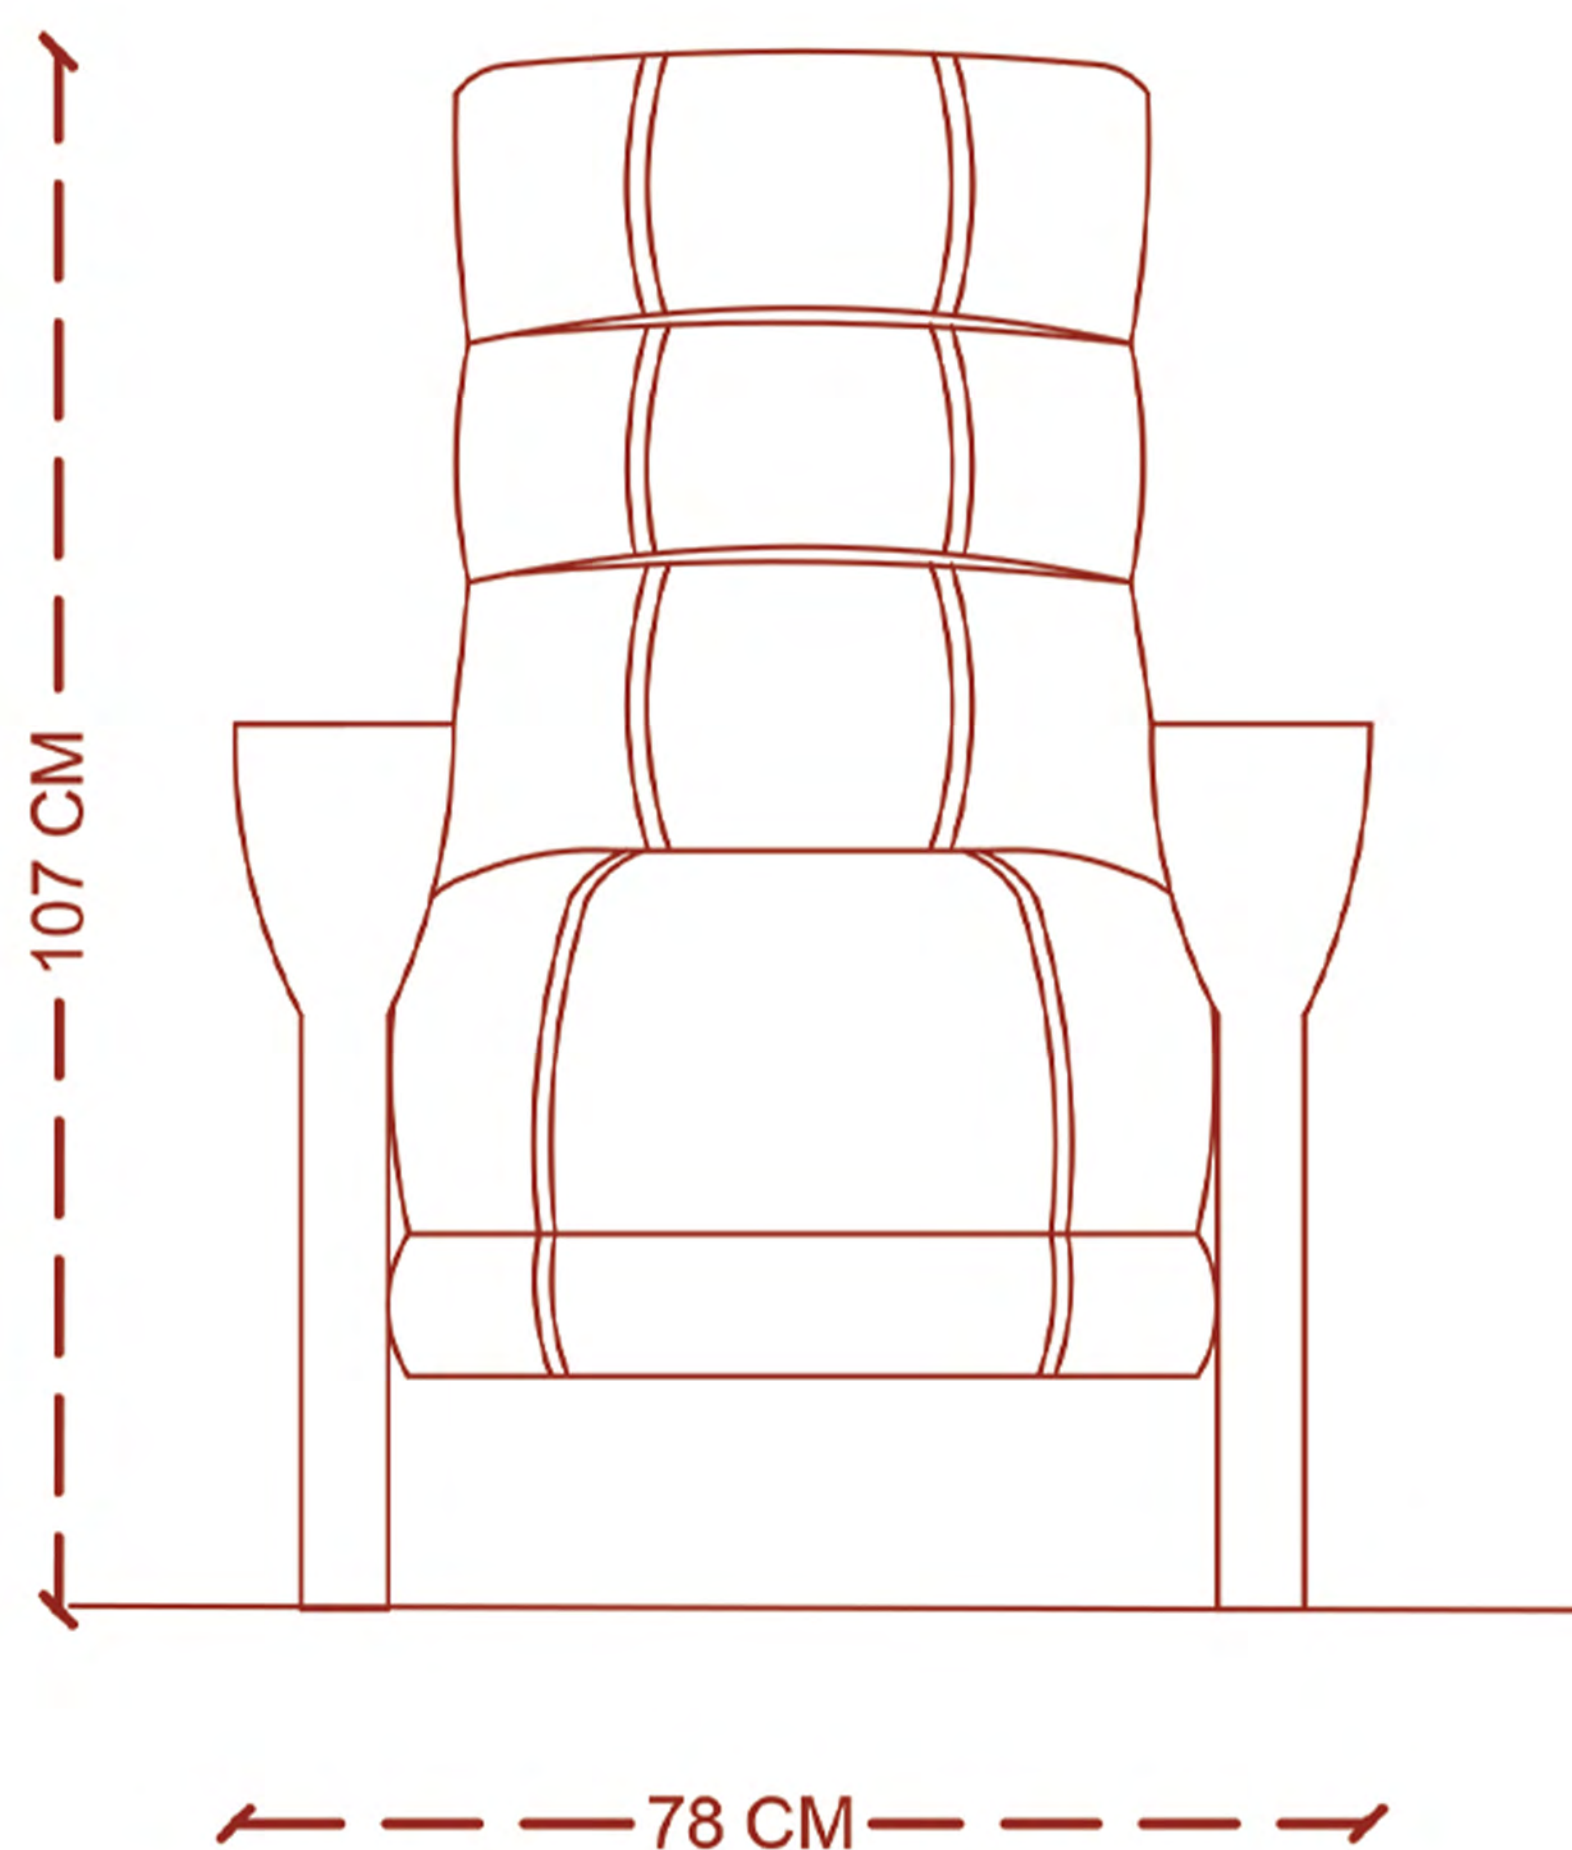

Engineered for unparalleled comfort and sophistication, our top-of-the-line offering, Platinum, features an ergonomic design with high-density molded foam, and a motorized neckrest for a truly personalized and comfortable seating position, setting a new standard in cinema seating.

KRYPTON

Minimum size, maximum seats

Designed with a plush backrest for ultimate comfort, Krypton ensures a luxurious movie-watching experience, while its minimal armrest design optimizes space utilization.

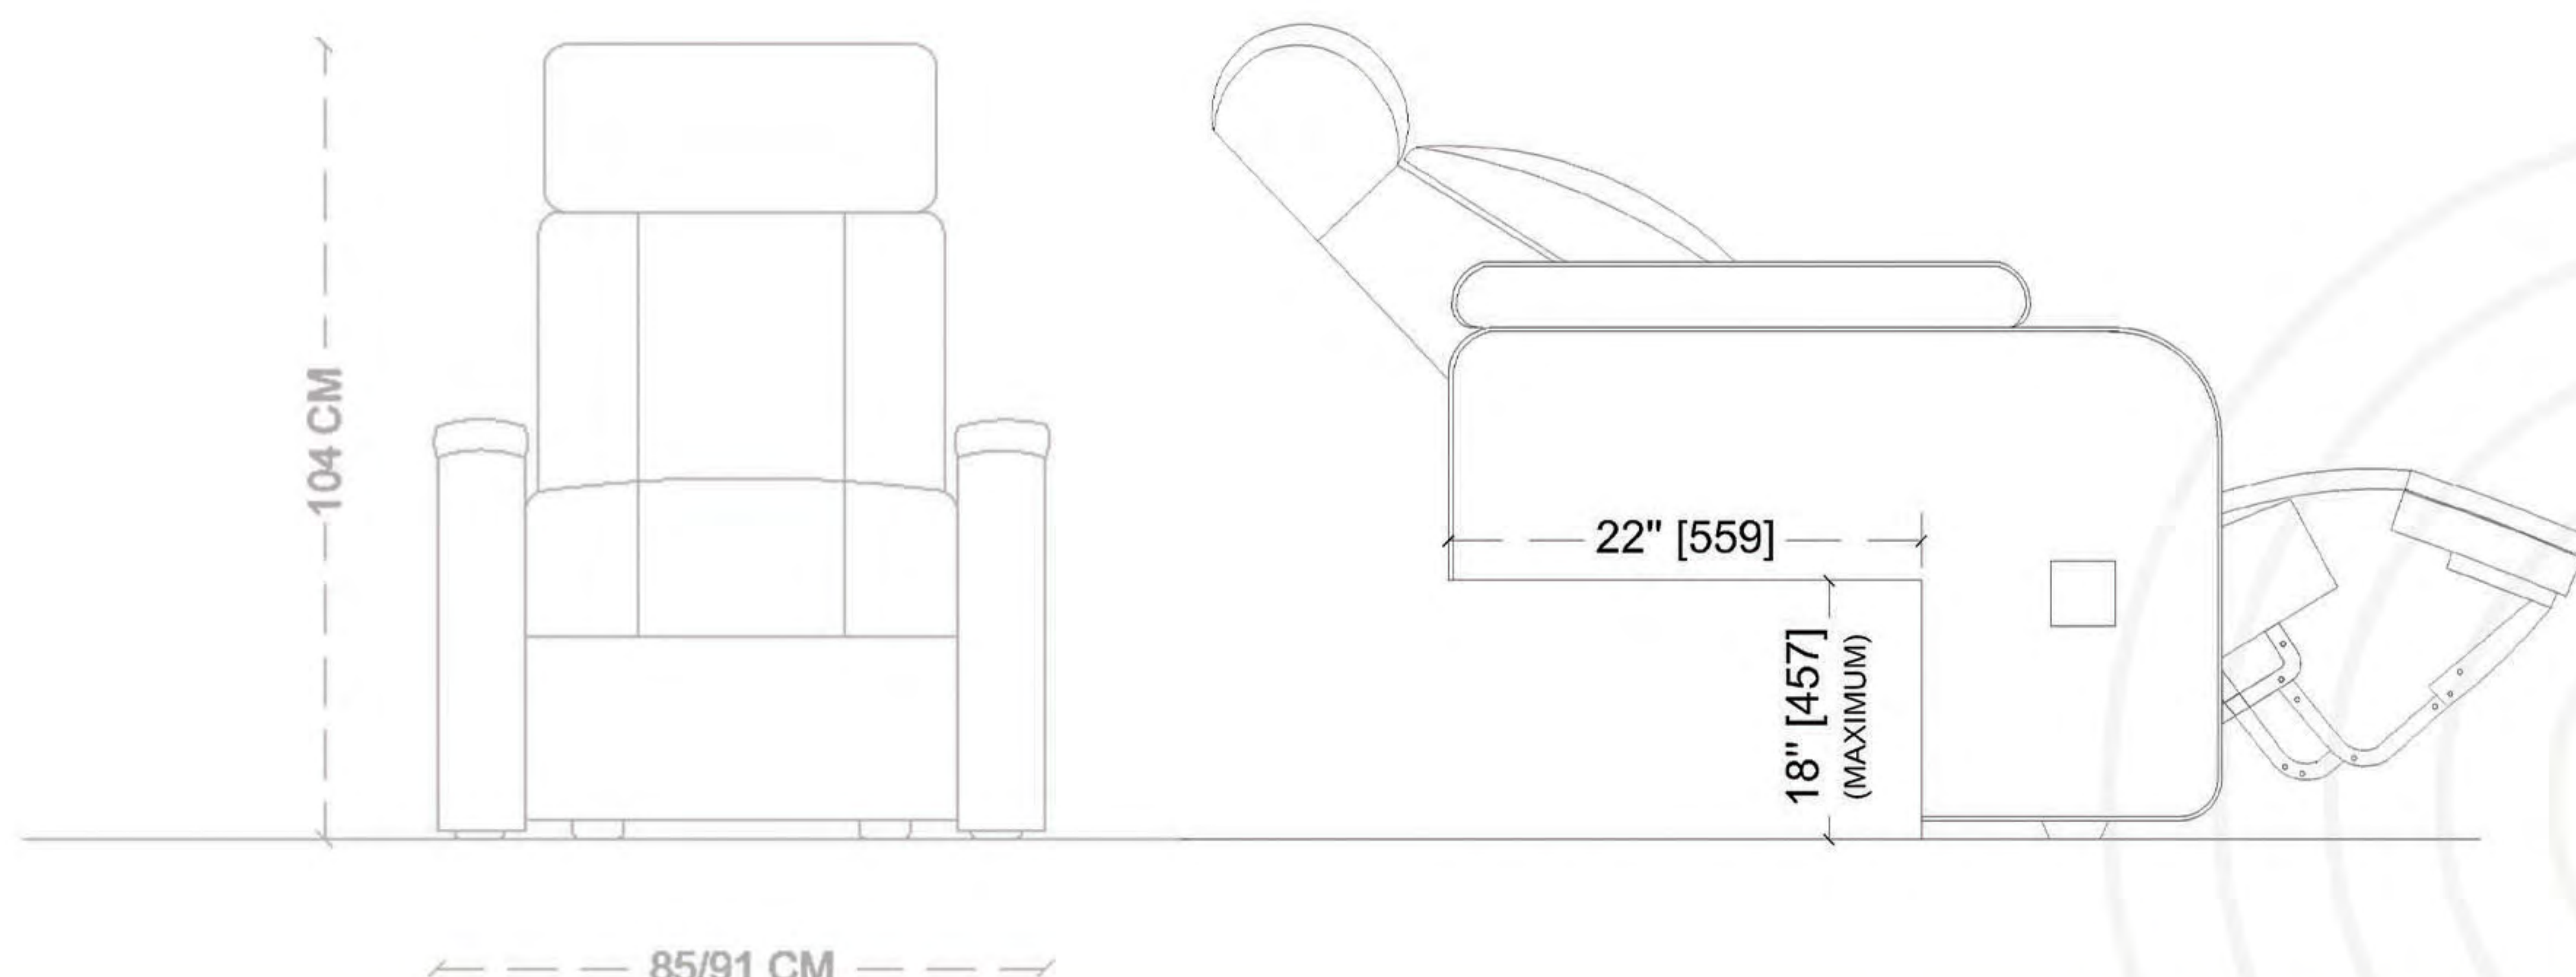

FLOATER

Modernise, hassle free

Upgrade your cinema's seating configuration effortlessly with our innovative floater mechanism. Whether you have steps or risers with standard seats or rockers, transforming them into VIP recliners has never been easier. With almost zero civil work, you can install the floater mechanism between two steps or risers.

Available with all Mini and XL VIP models – Helium, Neon, Platinum and Krypton.

GLIDER

Glide into comfort

TUNGSTEN

Space of a glider, comfort of a recliner. Tungsten delivers an advanced cinema seating experience with top of the line features, including reclining backrest metal construct and more.

RADIUM

The most economical cinema seat, Radium glider comes with a grand buffet of features starting with its varied colour and upholstery options and the ability to effortlessly turn into love seats.

KRYPTON

Easy cleaning mechanism, soothing recline position and an overall durable design that consumes less space but delivers more comfort. The Krypton glider by Atom Seating[®] is the perfect movie theatre seat, made with keen focus on space, durability and comfort.
